**DETAILED ACTION**

1. Claims 1,10,14,16,27,28,34,38,46 and 48 have been presented for examination.

**Response to Arguments**

2. The 112 2<sup>nd</sup> rejections as well as the prior art rejection are withdrawn in view of Applicants amendment and arguments.

**Reasons for Allowance**

3. The following is an examiner's statement of reasons for allowance: The claims are novel and nonobvious over the prior art of record for the following reasons. The prior art of record does not disclose or suggest the following features in light of the specification as well as in combination as arranged in the claims:

**“lightening the first original engineering model to establish a first lightened engineering model and lightening each of the additional original engineering models to establish additional lightened engineering models, the lightened engineering models including less data than their respective original engineering models;”**

as well as

**“presenting a list of the set of additional lightened engineering models in the web browser at the client system as selectable sub-components; receiving a selection, from the plurality of additional lightened engineering models in the web browser, of one or more of the sub-components to add to the web-based model;”**

These limitations indicate that the engineering models are progressively lightened as can be seen in “than their respective original engineering models.” This monotonic progressive lightening is not disclosed in the prior art in light of the specification as well as in combination as arranged in the claims. These limitations also indicate that the original engineering model is lightened and then

**categorized as a sub-component to create another model. This further indicates the monotonic progressive lightening as discussed above.**

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
